Google Apps List (and growing)

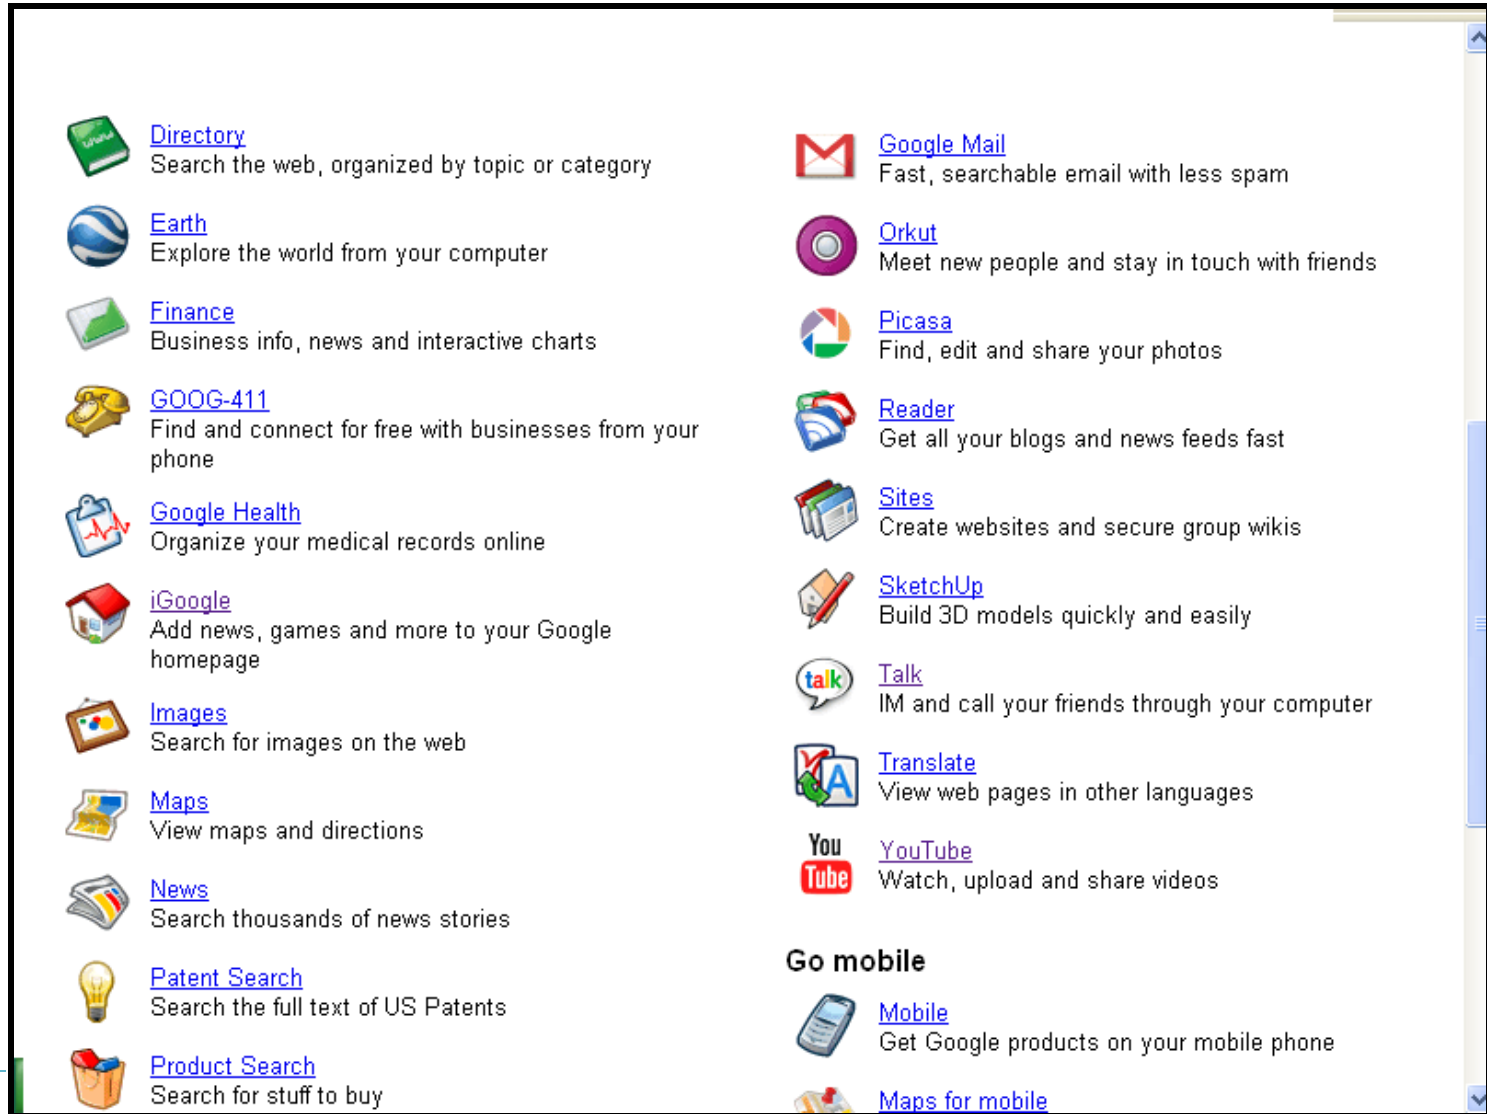

The image shows a screenshot of the Google homepage from around 2007. At the top left is the Google logo. To its right are navigation links for Web, Images, Video, News, Maps, Groups, Books, and Blogs. Below these is a search bar with the text "Search the Web". A blue bar below the search bar reads "More Google Products".

The page is organized into two columns of product links, each with an icon and a brief description:

- Search**
 - Alerts**: Get email updates on the topics of your choice
 - Blog Search**: Find blogs on your favorite topics
 - Books**: Search the full text of books
 - Checkout**: Complete online purchases more quickly and securely
 - Google Chrome**: A browser built for speed, stability and security
 - Custom Search**: Create a customized search experience for your community
 - Desktop**: Search and personalize your computer
 - Dictionary**: Search for definitions of words and phrases
- Explore and innovate**
 - Code**: Developer tools, APIs and resources
 - Labs**: Explore Google's technology playground
- Communicate, show & share**
 - Blogger**: Share your life online with a blog - it's quick, easy and free
 - Calendar**: Organize your schedule and share events with friends
 - Docs**: Create and share your online documents, presentations and spreadsheets
 - Groups**: Create mailing lists and discussion groups
 - Knol**: Share what you know

At the bottom of the screen is the Windows taskbar, showing the Start button and several open applications: Microsoft PowerPoint, picasa screen - Paint, and More Google Product... The system tray on the right shows the time as 5:36 PM.

Google Voice

Why I Love Google Voice

- **One Number for everything** – Assign mobile, office even home numbers
- **Incoming Call Control**– Direct certain callers to one or multiple phones, or directly to voicemail
- **Custom Messages** –Create different outgoing messages to address assigned groups, numbers, or individuals
- **Transcription**– Transcribes messages into SMS or email. No need to listen to voicemails again
- **Web Clips** – Choose or create screen access to your favorite RSS feeds
- **Free Calls and SMS** – Calling directly through GV to any US number is a free call, from your PC or mobile phone.

Google Talk

With Gmail and Google Voice, Talk offers free Video Chat and IM

1. Sign into your Google account, link to Talk and download the plug-in

www.google.com/talk/start

2. Access Talk from your Windows system tray, iGoogle page, or add to your website or blog.

3. To add Friends, click on the +Add button in the lower left hand corner of the gadget, and type in the email address or Google Talk username of your friend.

4. Open the Settings tab to customize your Talk screen, online presence and other features.

5. **Video Preview feature:** cut and paste a video URL from YouTube or Google Video into your chat, and send to your friend. You'll be able to watch the video right in the gadget, and if your friends are using the Talk gadget, they will too. You can share photos the same way by pasting a URL from Picasa Web Albums or Flickr.

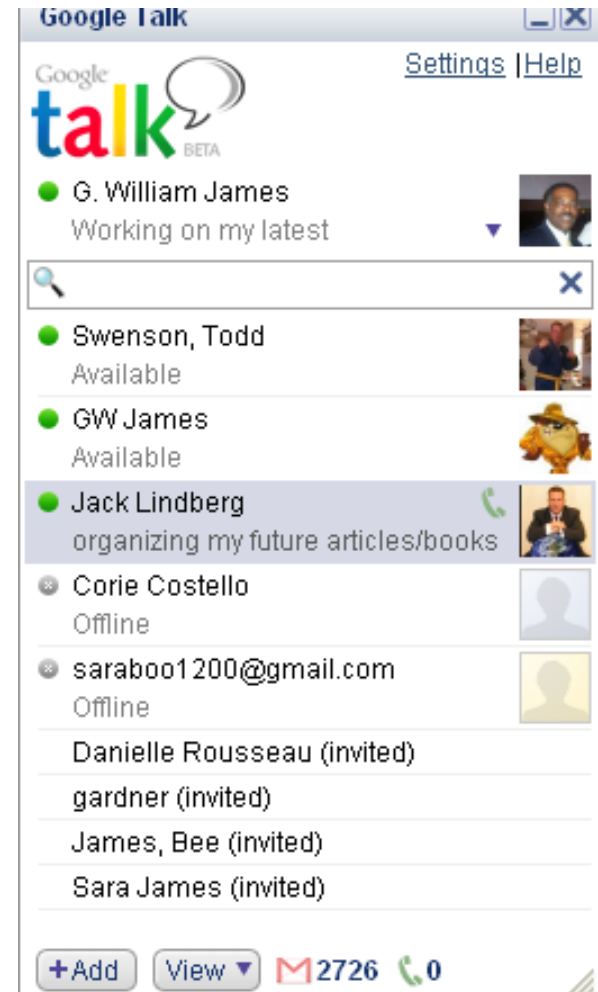

Google Talk

Calls, SMS and Instant Messaging

1. **Your Gmail contacts are pre-loaded into Google Talk**
The most frequently-emailed contacts are at the top of your Friends list.
2. **A colored ball icon next to their name, they can be called or receive an IM right away.**
3. **When Google Talk is installed, it automatically starts when you turn on your computer (you can turn this off in [Settings](#)).** Once you sign in, Google Talk automatically displays the people you communicate with most often, sorted by availability status and then alphabetically.
